

Photoshop Elements 8.0

Course Syllabus

Instructor: Brook Rouge

Course Description:

This course provides an introduction to basic and advanced skills using Photoshop Elements 8.0. During the duration of this course you will learn how to open photos, make various enhancements, and save photos in the appropriate formats. This course also covers related activities such as organizing your photo library on your computer so you can more easily find that specific photo. We will also touch upon using creative techniques with layers, filters, selections, layer styles, working with type, resizing and other program features in Photoshop Elements to enhance your images.

The techniques covered can be applied to both the Mac and Windows platform. Earlier versions of Elements will be similar though some features may not be available.

Class Meetings:

We have 7 class meetings from March 29th to May 10th. The class meets from 6PM to 9PM on Tuesdays.

Course Objectives:

- Open/Save Files & File Types
- Enhance Photos
- Organize Images
- Understand Layers
- Photo Manipulation
- And More!

Course Text:

Photoshop Elements 8.0 Digital Classroom
